#### MEMORANDUM - OFFICE OF THE TOWN ADMINISTRATOR

**TO:** Board of Selectmen

FROM: Carter Terenzini, Town Administrator

**RE:** FY 2015 Budget Transmittal

**DATE:** November 17, 2014

**CC:** Advisory Budget Committee

Enclosed is my recommended budget, legislative and administrative program for FY 2014.

## First - The Numbers:

Contained within your budget book is our annual "Build To" analysis (Page 3). This puts our recommendations for FY 2015 on a "head to head" footing with its FY 2014 equivalent. You will see that the proposed Operating and Capital tax levy budget is down some \$397,000 or 4.1% on an unadjusted basis. After adjusting for the FY '14 application of fund balance on the Taylor acquisition and States Landing articles, and the FY'15 lost revenue on the Police Revolving Fund, the tax levy budget is still down .8%. It requires some \$155,000 less in applied fund balance to maintain a level tax levy budget. Increases in the Library and/or petition warrant articles over FY 2014 will impact all of these figures.

For the operating budget as a stand-alone item, the bottom line is a recommendation of \$7,703,218 for FY 2015. This is a decrease of 1.77% or approximately \$140,000 less than FY 2014 on a non-adjusted basis or \$115,000 on an accounting adjusted basis.

## **Next – The Number Drivers:**

We had very few major cost drivers within the operating budget this year. The proposed COLA was relatively light at 1% for some \$40,000+/-. About 40% of our staff was eligible for steps this year for some \$30,000+/-. An anticipated increase in legal expenses of \$20,000 is driven by cable franchise and collective bargaining negotiations. Offsetting those increases were drops in:

-	Health Insurance	\$50,000
_	DPW Lease Expired	\$50,000
-	Software Support	\$5,000
-	Police Detail	\$20,000
-	Human Services	\$10,000
-	Employee Contribution to Benefits	\$10,000

The tax levy required for the capital budget was increased by roughly \$75,000 or 4.79%. This is slightly less than the permissible 5% cap. About one-third of that is in increased contributions to the Reserve Funds in our effort to get to the recommended Annual Required Contribution (ARC) levels.

In viewing those reductions please keep several things in mind:

- In losing the police detail expense you also lose the police detail revenue. Those will now flow from and to the revolving fund (ATM of 2014).
- The Tax Collection software support paid in 2014 for 2015 as part of the capital purchase package flows back into OPEX in 2016.
- The expired DPW lease is to be replaced by a Fire & Emergency Services lease as part of the capital budget.
- Health insurance, which came down as a result of our positive experience rating, a more favorable employee mix, and a bidding of the product to other vendors, can just as easily pop back up (by 16%+/- in some years).

Given the continuing high returns to the fund balance by the several departments, the use of Lump Sum Disallowed recommendations was continued this year totaling some \$22,500+/-. As previously discussed, our current annual return to fund balance is higher than I would normally anticipate. It remains my hope to reduce that over time.

# Safety Valves & Needs:

On the operating side, we have no major safety valves for added savings in FY 2015, beyond those proposed herein unless you make a reduction in services or restructure how those services are delivered.

On the capital side, savings would require cuts in our investments for which we have a settled strategy to increase. We caution against any such cuts. As you know from our lengthy discussions over the fund balance and trust fund policy, these short term solutions generally tend to have negative long term consequences.

Should any additional savings or revenues be identified I would recommend that you put them into one time capital expenditures or contributions to reserves.

# Finally:

With that as background, the staff and I look forward to answering your questions and preparing for Town Meeting.
